Novi, Michigan – December 29, 2008 – Red Level Networks, a Novi, Michigan based, full service for Advanced Infrastructure Networking solutions provider has announced a new client win – Vista Maria. Vista Maria is a private not-for-profit child welfare agency that provides education, therapy, spiritual support, shelter and care to disadvantaged children and their families who are struggling to cope with numerous challenges, including histories of abuse, neglect, and other traumas.

"With the exceptional attention to detail and the support of Red Level's knowledgeable technicians, Vista Maria realized immediate benefits with the installation of the Cymphonix Network Composer and a solid Disaster Recovery plan," said Chris Congdon, Vista Maria IT Manager. Vista Maria had been struggling with a severely bogged down network, several e-mail server issues, and an incomplete disaster recovery plan. Red Level Networks needed to step in to resolve these issues and introduce solutions that would allow for company growth and network enhancements.

Based on the expertise, knowledge and strong recommendations from David King, owner of Red Level Networks, a long-term solution was implemented for Vista Maria's infrastructure and computer network. Red Level introduced virtualization technology to provide local and offsite disaster recovery capabilities to Vista Maria and bandwidth management with advanced content filtering competencies.

"Thanks to Red Level we have turned the corner and brought our issues under control. I want to emphasize the trust we have in their abilities and appreciate their vision to assist us in the large scale planning of our network." adds Congdon.

Red Level Networks has formed a unique and "go-to" partner relationship with Cymphonix. Cymphonix makes it easy to gain control over Internet resources. The software achieves content filtering, bandwidth management, and stops internet threats while providing best in class features.

About Vista Maria

Celebrating its 125th Anniversary, Vista Maria is dedicated to providing a safe and nurturing environment for children and their families so that they reach their full potential. The focus is to build strong individuals and families with a positive spiritual foundation and provide a quality education leading to gainful employment, thus ending the cycle of abuse, neglect and poverty. Please contact Vista Maria at (313) 271-3050 extension 182.
