

Red Level Networks announces their Xiotech Data Storage and FalconStor Data Recovery Breakfast Seminar on July 14th at RLN's HQ in Novi.

NOVI, Mich. – **Red Level Networks of Novi is pleased to announce they will host the Summertime and the SAN Solutions is easy Breakfast Seminar** on Tuesday, July 14th from 8:30 am to 11 am at the RLN Facility in Novi. This seminar will feature the latest in Data Storage Solutions featuring Xiotech and Complete Data Recovery Solutions by FalconStor.

“We are very excited to be involved in offering a total SAN Solution by offering FalconStor's Data Recovery, the provider of TOTALLY Open™ data protection solutions and Xiotech's Emprise Data Storage, the effective data storage solution that seamlessly scales to meet any organization's growing appetite for capacity, while ensuring availability and fast access”, exclaimed David King, Red Level Networks president. Red Level Networks is a Certified Partner with Xiotech and FalconStor. Red Level Networks is now qualified to offer the best prices possible to their customers on all FalconStor and Xiotech products.

David King, Owner of Red Level Networks states, “We are proud to be presenting this series of free seminars and are looking forward to demonstrating the innovative, technology-related advancements and world-class software for continuing improvements of the Data Recovery and Data Storage markets.” For more information on the seminar or to register please call Jennifer Swiderski at 248.412.8200 ext 1026 or e-mail: jswiderski@redlevelnetworks.com.

About Red Level Networks:

Red Level Networks is a full service Advanced Infrastructure Solutions company which designs, installs and provides ongoing network support for small, mid-sized and enterprise businesses and the educational markets. Red Level Networks is a Gold Certified Microsoft Partner in the specialty of Advanced Infrastructure Solutions and has the technical experience providing solutions in the area of advanced network infrastructure serving its impressive client base since 2001.

Red Level offers information technology services 24/7, 365 days per year. Such services include hardware and software installation, hardware and software maintenance, networking, training, migrations, IT project planning, security audits, assessments, planning and design, installation and configuration, multi-system integration, performance analysis, managed services, and ongoing network management. With experience, training and certifications in such diverse systems as Cisco, Microsoft, Citrix, Xiotech, VMWare, HP, FalconStor, Cymphonix, and others, Red Level is able to ensure that customers have reliable and efficient technology at their fingertips. About FalconStor:

The provider of TOTALLY Open™ data protection solutions, FalconStor Software leads the way in developing innovative, scalable, and open network storage solutions designed to optimize the storage, protection, efficiency, and availability of enterprise data and applications. FalconStor-powered data protection solutions change the economic equation for companies that need to manage their IT bottom lines -- despite exponential data growth and ever-expanding retention periods. FalconStor solutions are available and supported by major OEMs, as well as leading system integrators and resellers worldwide.

FalconStor's award-winning solutions — Continuous Data Protector (CDP), Virtual Tape Library (VTL), and Network Storage Server (NSS) are deployed by worldwide Fortune 1000 enterprises, including leaders in financial services, telecommunications, aerospace, manufacturing, law, energy production, government, healthcare, and higher education. Built on the FalconStor IPStor® storage virtualization platform, FalconStor delivers a complete line of highly scalable, energy conscious solutions that grow to meet the requirements of the smallest businesses through the largest global enterprises.

About Xiotech:

Based in Eden Prairie, Minn., Xiotech provides data storage and data protection solutions and currently has more than 2,000 customers. Established more than 12 years ago, Xiotech has built a reputation for reliable, flexible, easy-to-use storage solutions. Earlier this year Xiotech introduced the Emprise 7000 storage area network (SAN) and Emprise 5000 direct- and switch-attached storage systems. Featuring ISE technology, the new Emprise storage systems virtually eliminate service and failures, scale from one terabyte to one petabyte, and provide industry-leading performance for the price, validated by Storage Performance Council (SPC) tests.
