Red Level Networks Joins Crockett Technical School Job Shadow Day Program

*Red Level Networks Selected to Participate in the
Detroit's Crockett Technical High School "Job Shadow Day Program"*

Novi, Mich. – February 2, 2009 – Red Level Networks announced today that it has been selected and is proud to participate in Detroit's Crockett Technical High School "Job Shadow Program." Because of the continuing success of this wonderful and unique community oriented Job Shadow Project, Red Level Networks is pleased to host up to seven talented, technology-oriented students to visit Red Level Networks facility in Novi, MI. This will enlighten the chosen individual students to learn about the actual day in the life of a technical engineer.

David King, President of Red Level Networks exclaims, "This is a terrific opportunity for these young men and women to experience first hand the challenges and stimulation of new and applied technologies. We are very much looking forward to an exciting day here at Red Level Networks, on Thursday, February 19, when the students will arrive." The students are expected around 10 am at the Novi headquarters from Crockett Technical High School in Detroit, and after a full day of "shadowing", learning and working with the Red Level Technology Team, the students shall depart in the afternoon with fond memories and a glimpse into their future.

For more information on the Crockett Technical High School, please contact Detroit Public Schools Media Contact Mattie Majors at 313-873-8401, mattie.majors@detroitk12.org. For more information on the Crockett Job Shadow Day Program Julie Osburn, Assistant Director of Corporate and Foundations Relations, Wayne State University at 313.577.9026.
