

Red Level Networks Announces New Client Win

All Saints Catholic School Becomes Red Level Client

Novi, Mich. – November 8, 2011 - Red Level Networks, a premier Michigan-based IT solutions provider, announced today that it has been selected to provide IT solutions for All Saints Catholic School in Canton, Mich. As part of All Saints' initiative to infuse technology into the school and classrooms, this agreement allows Red Level Networks to provide numerous IT solutions for All Saints, including several virtualized servers with Citrix Farm and Datacore solutions; this agreement also includes 77 new Wyse thin clients and 40 desktops.

Red Level Networks is a premier IT Solutions company offering customized technology solutions that accelerate growth, reduce costs and enable scalability. Red Level Networks partners with small and mid-sized companies, supporting the entire framework with services such as virtualization, disaster recovery, managed services, cloud computing, and more.

"We are happy to be selected by All Saints Catholic School in its search for an IT provider," said David King, founder and president of Red Level Networks. "Our expansive knowledge base and wide range of services was a perfect fit for All Saints."

In addition to the educational markets, Red Level Networks serves over 300 clients in a variety of industries such as manufacturing, healthcare, transportation, and financial, professional, and legal services. Both currently existing and customizable solutions exist for these markets and all Red Level clients.

"Working with Red Level Networks was a great educational experience," said Kristen Strausbaugh, Principal at All Saints Catholic School. "They understood our needs right from the beginning, and they were able to apply the knowledge of several technical engineers to incorporate technology into our students' education."
